Availability: Immediately Available

PROFESSIONAL SUMMARY

Full-stack Developer with nearly 4 years of experience designing, developing, and maintaining scalable, cloud-native web applications. Strong expertise in Python, PHP, JavaScript, and TypeScript, with hands-on experience in React.js, Node.js, Express.js, Laravel, and Flask, and in building RESTful APIs. Proficient in applying Object-Oriented Programming (OOP) principles to develop clean, maintainable, and reusable code. Experienced in AWS cloud services, microservices architecture, database optimization, and CI/CD pipelines, working effectively in Agile environments.

SKILLS

- Programming Languages: Python, PHP, JavaScript (ES6+), TypeScript
- Frontend Technologies: HTML5, CSS3, React.js, MUI, Bootstrap
- Backend & API Development: Flask, Node.js, Express.js, Laravel, RESTful APIs, JWT Authentication, OAuth, WebSocket, API Integration, JSON
- Databases: MySQL, MongoDB, Query Handling
- Software Engineering Practices: Object-Oriented Programming (OOP), SDLC, Agile, Waterfall, MVC Architecture, Microservices Architecture
- Cloud & DevOps: AWS (EC2, S3, Lambda, API Gateway, Cognito), Docker, Kubernetes, Linux
- Version Control & Tools: Git, GitHub, Postman, SVN, Swagger/OpenAPI, Redmine, Trello
- Testing & Quality: Unit Testing, API Testing, Debugging
- IDEs & Design Tools: Visual Studio, VS Code, PyCharm, PlantUML, Draw.io
- MS Office: Word, Excel, PowerPoint, Outlook, Teams
- Soft Skills: Cross-functional collaboration, Problem Solving, Communication, Teamwork, Quick learner

PROFESSIONAL EXPERIENCE

Software Engineer | Quest Global Engineering Services Private Limited

Thiruvananthapuram, India — Jun 2022 – Sep 2025

- Designed and implemented a cloud-based medical equipment monitoring platform using AWS Lambda (Python), API Gateway, Cognito, QuickSight and building a responsive UI with React.js, TypeScript and MUI improving data processing efficiency by 30%.
- Developed real-time event processing applications using Node.js, Express.js, and WebSocket, reducing latency and improving system responsiveness.
- Implemented workflow automation systems using Python (Flask), React.js, and MongoDB, enabling efficient machine learning pipeline execution.
- Introduced structured MLOps practices using MLflow and Kubernetes-based deployments with Seldon Core to standardize model release processes.
- Streamlined relational and NoSQL databases (MySQL, MongoDB), improving query performance.
- Deployed dockerized microservices on AWS EC2 & Kubernetes, enabling horizontal scaling during peak traffic.
- Collaborated with cross-functional teams and mentored junior developers, improving code quality and

delivery timelines.

- Drafted technical documentation including system requirements, API references improving team productivity.

Software Developer | Flotilla Technologies

Ernakulam, India Jun 2021 – Feb 2022

- Built and maintained a Learning Management System (LMS) using PHP (Laravel), JavaScript, and RESTful APIs, supporting efficient course delivery and platform scalability.
- Optimized MySQL queries, reducing response time by 25%**.**
- Executed backend features including JWT-based authentication, student registration, course management, and admin dashboard, with exposure to Razorpay payment integration concepts, enabling secure and scalable LMS operations.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

St. Thomas College of Engineering & Technology | Chengannur, India Aug 2016 – May 2020

CGPA: 7.73/10

AWARDS

- Recognized for quickly grasping complex business requirements, handling critical modules for international projects, and demonstrating strong ownership.
- Received appreciation mails from the clients and management for performance and delivery.

LANGUAGES

English, Hindi, Tamil, Malayalam (Native)
